

Summary Statistics for On-Site (Private) Wastewater Systems

Statistic	Neighborhood				Total
	Callon	Yellow Banks	Kellyland	Sandhill Meadows	
Total Number of Systems	120	173	157	53	503
Number of Original Systems Replaced	16	33	8	2	59
Average Age of Systems at Time of Replacement	22.1	24.8	17	13.5	N/A
Number of Original Systems Remaining	104	140	149	51	444
Average Age of Remaining Original Systems	24.2	23.9	14.9	14.2	N/A
Median Age of Remaining Original Systems	23.5	26	12	10	N/A
Number of Remaining Original Systems Older Than (or as Old as) Average Age of Replaced Systems	62	79	54	19	214
Percentage of Remaining Original Systems Older Than (or as Old as) Average Age of Replaced Systems	60%	56%	36%	37%	48%
Number of Remaining Original Systems Installed Prior to 1974	31	50	12	8	101
Percentage of Remaining Original Systems Installed Prior to 1974	30%	36%	8%	16%	23%
Number of Remaining Original Systems Installed Prior to 1978	52	76	19	11	158
Percentage of Remaining Original Systems Installed Prior to 1978	50%	54%	13%	22%	36%

Note: Systems installed prior to 1974 would not have been installed to any engineering standards.
 All systems installed prior to 1978 are not permitted with the County and are not monitored for maintenance by the County.
 System ages indicated to be suspect were not used in determining average system age and other statistics. However, those systems are included in tallies of systems older than average, systems installed prior to 1974 and systems installed prior to 1978.
