

Summary Statistics for On-Site (Private) Wastewater Systems

Statistic	Neighborhood				Total
	Callon	Yellow Banks	River Bend/Powers (a.k.a. Kellyland)	Sandhill Meadows (Not included in 2004 surveys)	
Total Number of Systems	120	174	139	53	486
Number of Original Systems Replaced	16	35	8	2	61
Average Age of Systems at Time of Replacement	22.1	25.7	17	13	
Number of Original Systems Remaining	104	139	131	51	425
Average Age of Remaining Original Systems	26.2	25.5	16.3	18	
Median Age of Remaining Original Systems	25.5	28	14	15	
Number of Remaining Original Systems Older Than (or as Old as) Average Age of Replaced Systems	59	85	51	29	224
Percentage of Remaining Original Systems Older Than (or as Old as) Average Age of Replaced Systems	57%	61%	39%	57%	53%
Number of Remaining Original Systems Installed Prior to 1974	27	47	8	7	89
Percentage of Remaining Original Systems Installed Prior to 1974	26%	34%	6%	14%	21%
Number of Remaining Original Systems Installed Prior to 1978	48	73	13	10	144
Percentage of Remaining Original Systems Installed Prior to 1978	46%	53%	10%	20%	34%

Note: Systems installed prior to 1974 would not have been installed to any engineering standards.
 All systems installed prior to 1978 are not permitted with the County and are not monitored for maintenance by the County.
